DANGEROUS GOODS CORROSIVE CLASS LABEL (Bulk or Package)

CORROSIVE CHEMICALS TRANSPORT CLASS LABEL (DS WCSS006_7)

This **Transport Class Label** is as per the requirements of the Australian Code for the Transport of Dangerous Goods by Road & Rail (ADG Code).

Material: Metal or Plastic – 250mm x 250mm.

- The **Corrosive Chemicals Transport Class** label is required to be prominently displayed in the correct configuration on the dangerous goods vehicle when transporting corrosive dangerous goods chemical containers as per the Australian Code for the Transport of Dangerous Goods by Road & Rail (ADG Code).
- The **Corrosive Chemicals Transport Class** label must be legible, durable/weather resistant, not be obscured and the vehicle must be of contrasting colour to the colour of the class label.
- The bulk transport of corrosive dangerous goods greater than 500 L/kg requires this corrosive diamond on the front of the vehicle and additional **Bulk Transport EIP's** on the sides and rear, as per the Australian Code for the Transport of Dangerous Goods by Road & Rail (ADG Code).
