The **NO CHLORINE LEAK WARNING** sign is to be installed at sites that do not have chlorine leak detectors or do not have SCADA-linked detectors with external warning lights.

- The **NO CHLORINE LEAK WARNING** sign shall be posted at the entrance to site (on the front gate) or on a freestanding post within the vicinity of the front gate.

- The **NO CHLORINE LEAK WARNING** sign shall be displayed at a level so that it is visible from the normal direction of approach.
