This Hazard Danger Sign is in landscape format with the standard danger symbol as per AS1319. The other text is black on a white background.
Material - Metal 450W x 300H with the other dimensions as indicated.

- The Multi-Sodium Aluminate sign is to keep the entry/exit areas clear and to stop unauthorised personnel from entering the area where the chemical is stored.

- The Multi-Sodium Aluminate shall be posted on the outside wall near the unloading area and/or entry to the chemical facility. The sign may be posted on the personnel door if wall space is not available.

- The Multi-Fluorosilicic Acid shall be displayed so that it is visible from the normal direction of approach.
