

Standard Signage for Treatment & Chemical Dosing Plants

CHEMICAL INSTALLATIONS & PLANTS

BURIED CHEMICAL LINES SIGN (DS WCSS154)

This **Hazard Warning** sign is a vertical sign with a standard warning symbol and white 25mm text on a lilac background.

Material: Metal - 90 (W) x 750 (H).

Design: 6 x 5mm holes are located at the top, middle and bottom to locate threaded U bolts with washers and nuts to support the sign on a star picket.

Note that the arrow(s) may be placed on the right, left or both sides.

- The **Buried Chemical Line** sign should be attached to a star picket (top of sign min 1500mm above ground).
- The **Buried Chemical Line** sign should be positioned at every change of direction or at a maximum of 50 metre intervals of the underground chemical lines.

Note: Caution should be taken when inserting the star pickets into the ground so as not to damage any underground services.
