

Standard Signage for Treatment & Chemical Dosing Plants

CHLORINE FACILITY

CHLORINE VENT LINE SIGN (DS WCSS170)

This **Identification** sign is in landscape format with a standard warning symbol as per AS1319. The text and arrow symbol is black on a golden yellow background.
Material: Vinyl or metal 100mm x 200mm with the other dimensions as indicated.

- The **Chlorine Vent Line** sign shall be posted where the termination point is not readily identifiable. The sign shall be posted on the wall of the building above where the vent line(s) are located to clearly identify the chlorine vent termination point.
- The **Chlorine Vent Line** sign shall be displayed at eye level so that they are visible from the normal direction of approach.
- The sign is mandatory for evaporator gas vent lines at liquid facilities.
