

Standard Signage for Treatment & Chemical Dosing Plants

TREATMENT or CHEMICAL DOSING PLANTS

VALVE LOCKED IN CLOSED POSITION (DS WCSS172)

This **General Information** sign is in landscape format. The standard notice block is white text on a blue background with the other text black on a white background.

Material: Metal – 450 (W) x 300 (H) with the other dimensions as indicated.

- The **Valve Locked In Closed Position** sign should be mounted directly above the manual bund drain valve at the chemical installation or plant.
- The **Valve Locked In Closed Position** sign should be displayed at a level that is visible from the normal direction of approach.

Note: This sign shall be used at corrosive liquid facilities where the bund sump drainage system incorporates a manual valve (instead of an automated valve). Typically found where the corrosive liquid facility was built pre design standard (2008).
