CORROSIVE CHEMICALS  
BULK or PACKAGE STORES  
SAFETY FACE SHIELD SIGN (DS WCSS202)

This **Mandatory PPE** sign is in portrait format with the standard mandatory symbol in dark blue and white as per AS1319. The other text is black on a white background. Material: Metal - 300W x 450H with the other dimensions as indicated.

- The **Safety Face Shield** sign shall be located on the wall next to the entry to the corrosive chemical bund or store. Where there is a viewing room the sign shall be posted on the door into the storage area.

- The **Safety Face Shield** sign shall be posted at a level that is clearly visible on approach to the corrosive chemical storage area.

- A **Safety Face Shield** is a minimum item of Personal Protective Equipment (PPE) when conducting a **walk-through** of a corrosive chemical facility e.g. Fluorosilicic Acid, Hydrochloric Acid, Sodium Hydroxide (Caustic Soda) Sodium Hypochlorite, Aqueous Ammonia, Aluminium Sulphate, etc. Refer to the ChemAlert or MSDS for other PPE requirements when conducting other activities.

Note: The **Safety Face Shields** shall be maintained and kept in a clean, designated and well-identified location.
