

# Standard Signage for Treatment & Chemical Dosing Plants

## CHEMICAL INSTALLATIONS & PLANTS

### EMERGENCY SHOWER DIRECTION SIGN (DS WCSS307)

This **Emergency Information** sign is in landscape format with a white symbol and text on a green background.

Material: Metal or vinyl – 300 (W) x 150 (H) with the other dimensions as indicated.

- Where a shower/eyewash station is not visible from the area where hazardous operations occur, then an **Emergency Shower Direction** sign shall be provided to allow personnel to readily locate the station.
- The **Emergency Shower Direction** sign should be posted on a wall or freestanding post so that is visible from the entry/exits of the chemical installation.
