

Standard Signage for Treatment & Chemical Dosing Plants

TREATMENT or CHEMICAL DOSING PLANTS

PROCESS UNIT IDENTIFICATION LABELS (DS WCSS403) (examples)

These **Identification** labels are rectangular with 75mm black text on a white background.

Material: Vinyl / Magnetic – TBD (W) x 100 (H).

- The **Process Unit Identification** label(s) should be posted on the outside of the vessel(s) or structure(s) of that process unit.
- The **Process Unit Identification** label(s) shall be displayed at a level so that it is visible from the normal direction of approach.
