CHLORINE BULK or PACKAGE STORES

FAULTY CHLORINE CONTAINER LABEL (DS WCSS406)

This **Status** label is in landscape format with a golden yellow drum, a signal red cross and black 20mm text on a white background.

Material: Vinyl / Magnetic – 300 (W) x 200 (H).

- The **Faulty Chlorine Container** label should be placed on the chlorine drum or cylinder in the event of a container having had a supply fault.
- The **Faulty Chlorine Container** label should remain on the chlorine container until the supplier/transport company removes it from site or rectifies the fault.
