

Standard Signage for Treatment & Chemical Dosing Plants

BOREFIELDS TESTING OR COMMISSIONING

BORE TESTING SIGN (DS WCSS601)

This **General Information** sign is in landscape format with white text on a dark blue background, and a standard Water Corporation logo.

Material: Metal – 600 (W) x 450 (H) with the other dimensions as indicated.

Design: The Sign is attached to a standard reversible 'A' frame with a carry handle.

- The **Bore Testing** sign should be located near the pipe outlet of the bore water that is being pumped.
- The **Bore Testing** sign is to inform the general public that bore water is being pumped into stormwater drains, a road sump, or open low lying areas for a period of time, and that bore testing and water sampling is being conducted.
- The **Bore Testing** sign is a double-sided portable sign to provide a visible notice from both directions.
