

# Standard Signage for Treatment & Chemical Dosing Plants

## TREATMENT or CHEMICAL DOSING PLANTS

### REMOTE SITE DIRECTION SIGN (DS WCSS652)

This **Directional Information** sign has reflective silver text and an arrow on a blue background with a standard Water Corporation logo.

Material: Metal – 400 (W) x 120 (H) with the other dimensions as indicated.

- The **Remote Site Direction** sign should only be used for remote treatment or chemical dosing plants that are difficult to find.
- The **Remote Site Direction** sign should be posted at an appropriate location near the roadside indicating the road or track that leads to a remote treatment or chemical dosing plant.
- The **Remote Site Direction** sign should be attached to a freestanding post or pole at a height that does not interfere with any other road signs.
- The **Remote Site Direction** sign should be displayed at a level so that is visible from the normal direction of approach.
