Once a licensed plumber has relocated the internal pipe work, the application has been approved and payment made, you will need to call 13 13 95 when you are ready for the work to start. Once you call, we will endeavour to have the requested work completed within 10 working days.

Due to electrical risks we are prevented from installing the water meter within 500mm from the centre of the power dome.

Please use comments field below to indicate the distance (in mm) and the direction left or right that the meter needs to be moved from its present location when looking from the road. The information you record here will be used directly by our contractors when actioning your request.

## Payment

On completion of your meter relocation or disconnection request, an application account will be issued to you. The payment options available are shown on the reverse side of the payment voucher.

## Your Responsibility

**The property owner is required to arrange a licenced plumber to relocate the internal pipe work at their own expense prior to Water Corporation attending the property to relocate or alter the level of the meter.**

## Meter boxes

All meter boxes are to be installed by Water Corporation or our approved installer, providing all our safety requirements are met, refer to [Standard Meter Box Installation](#) for more information.

Subject to your agreement of our [Standard terms and conditions](#), Water Corporation or our approved installer will install the meter box.

Meter boxes can only accommodate services up to 50mm, provided we have not classified the backflow risk as 'high'. Services with a high backflow risk will require a back flow prevention device that will not fit in a box.

## Conditions

With respect to this application, I acknowledge and agree that the approval of this application and provision of a service will be subject to the [Standard terms and conditions](#).

**I have read and understood these terms and conditions,**
