**Email:** None available

**Manufacturer:** Shane Calegari  
**Address:** 10 Verbena Crescent Dianella WA 6052

### Product/device description

The GKS Grease Mate Filter can be installed as part of a new grease arrestor installation or retro fitted to the existing grease arrestor. The filter is installed upstream of the grease arrestor outlet.

The grease baffle, solids baffle and filter are sized according to the specific dimensions and flow rates through the arrestor. The baffle, channel supports and fixings are manufactured from 316 stainless steel.

The product Acceptance Number is AN-037-01.

### Special conditions of approval

1. The use of the GKS Grease-Mate Filter does not automatically imply approval for a reduction of a premises grease arrestor servicing frequency. Changes to frequency will only be made on the basis of site specific assessments of solids and grease levels in the arrestor which may incur separate fees and charges.
2. The product shall be *supplied* with manufacturer's installation instructions and recommended procedures for operation and maintenance.
3. The product shall be *installed* strictly in accordance with the manufacturer's written instructions and performed by a licensed plumber.
4. The product shall be *maintained* to ensure the ongoing reliability of the product. A statement to this effect must be included in sales documentation.
5. Water Corporation must be notified within fourteen (14) days upon installation of the product.
6. Clear access for the purposes of maintenance or servicing of the product must be maintained at all times.
7. This acceptance certificate is not an endorsement of the product by Water Corporation, and no claim shall be made in advertising, promotion or other manner to the effect.
8. Water Corporation accepts no responsibility for the effective operation, performance or efficiency of the product.
9. The proponent of the accepted product must formally seek a request for re-acceptance of the product no later than three (3) months before the assigned **Validity Period** has expired from the **Date Issued** of this acceptance certificate.
10. Water Corporation reserves the right to vary any requirements at any time. Any application of this condition normally occurs after consultation with the manufacturer, supplier and end business user connected to Water Corporation's sewer.
11. Water Corporation shall be notified in writing if the product is withdrawn from sale.
12. The proponent of the accepted product accepts that the information provided in this document shall be made publically available.

# Approval certificate

## Trade waste pre-treatment product

### General conditions of approval

Approval shall be **suspended** where any of the following conditions are not met:

1. If there is a breach of the Special Conditions.
2. The assigned **Validity Period** has expired from the **Date Issued** of this approval certificate.
3. The product shall be manufactured to comply according to the details noted in *Grease-Mate Filter Detail* and *Grease Mate Filter Installation drawings* (drawing numbers and publication dates not available) in addition to any further details provided by the proponent when seeking this acceptance.
4. The product shall be manufactured in accordance with Water Corporation's requirements at the time of approval.
5. The product supplied for use in Water Corporation's area of operations shall comply with the requirements shown on this approval certificate. Sizes, classes, lengths or other product variables which are available with the product but which are not approved as listed on this approval certificate shall not be offered by the supplier for use in Water Corporation's area of operations.
6. All discharges to sewer associated with this product must not exceed Water Corporation's *Trade Waste Acceptance Criteria*.
7. Prior to any business (which is connected to Water Corporation's sewer) installing this product the business must apply to Water Corporation for a *Trade Waste Permit* for approval to discharge.
8. If this certificate has been issued to the manufacturer of this product then it is the responsibility of the manufacturer to ensure all current and future suppliers / vendors of this product are provided a copy of this approval certificate.

Approval shall be **reviewed** where any of the following conditions occur:

1. The product is manufactured with either different materials, methods of manufacture, location of manufacture, source of raw materials, component subcontractors or models to that at the time of approval.
2. The ownership of the primary manufacturer or any subcontractors is varied from that at time of approval.
3. The standards and/or specifications to which the product was required to comply with at the time of approval have been amended or revised.
4. The product has been found to sustain damage or provide unsatisfactory performance on occasions of number considered excessive by Water Corporation, when handled, stored, assembled or installed in accordance with the supplier's or manufacturer's written instructions.

**Approved drawing(s):** As per drawings *Grease-Mate Filter Detail* and *Grease Mate Filter Installation drawings* (drawing numbers and publication dates not available).

**Authorising person:** Stephen Jerkovic (Team Leader – Investigations)

**Date issued** 10 October 2017

**Validity period:** Five (5) years
