

HALGAN™ MGTA5000-WA ABOVE GROUND DETAIL

1. General

- 1.1. Tank constructed from Polyethylene.
- 1.2. Is to be installed in a location that will not cause a nuisance, obstruct fire access, cannot be vandalised or be damaged by vehicles.
- 1.3. Must have ease of access to pumpout point for maintenance.
- 1.4. Non standard installations require Halgan approval.

2. Installation above ground

- 2.1. The Halgan Tanks to be supported on a 100mm thick concrete pad.
- 2.2. Any maintenance platform must be installed in accordance with Australian Standard 1657-1992 allowing safe access while inspecting and maintaining.
- 2.3. All pipes connecting shall be fully supported; there shall be no stress on the tank connections.
- 2.4. All stormwater must be diverted away to prevent undermining of foundation.
