- Installed above ground
- Ideal for commercial kitchens

To order this item please advise:

- Required dimensions (and capacity)
- Grade of stainless - 304 or 316

INSTALLATION NOTES

1) Tank must be installed level to operate effectively. 2) If being installed under a bench top or permanent fixture, ensure enough space is provided to remove capture box and gain access to inside of tank for cleaning. 3) Tank controls incoming solid particles by filtering through capture box, baffles and perforated filter screens.

Regular cleaning is recommended.
