Authority to Proceed

I, the undersigned, request that my grease arrestor be inspected and monitored to identify if the current frequency of pump out (emptying) can be altered. The grease arrestor must not be overdue for servicing for a reassessment to take place.

I understand that there will be a fee of \$483.12 including GST (2023/2024 financial year rate). This fee will be billed once my application has been lodged with Water Corporation.

The frequency may increase or decrease as a result of this request.

PLEASE NOTE THAT IN SIGNING THIS APPLICATION, YOU WILL BE DEEMED TO HAVE AGREED WITH THE FEES AND CHARGES STATED ABOVE, AND TO BE BOUND BY THE CONDITIONS AS DESCRIBED.

Any change to the frequency will result in an amended trade waste permit being issued and your nominated liquid waste contractor being advised of the change.
