

Start of work

Pipes for Perth – East Fremantle Stage 2

Our authorised contractor DM Civil will soon begin work on Stage 2 works to install a new watermain along Petra St, at the intersection of Canning Highway, between Hammad St and Bicton Central shopping centre.

Where will the works be happening?

Works will begin along Petra Street and underneath Canning Highway and down Hammad Street in **mid-May 2023** from 7am to 5pm on weekdays with Saturdays and nightworks when required, for a period of approximately 3 months.

Once this section has been installed, additional works will be required at other sites in East Fremantle to connect the new watermain to the existing network and to decommission the old watermain. Areas impacted by the works are shown on the map below. The staging of these works will be shared with the community and will be updated on the online portal.

Search **'Pipes for East Fremantle'** online to see the latest construction timeline.

What will the impacts be?

Road closures and traffic interruptions:

- There will be road and lane closures along Petra Street.
- Traffic management and detours will be in place.
- Access to shopping centre precincts at the intersection of Canning Highway and Petra Street will be maintained.
- Most work will be occurring within the road.
- Some verges will be impacted by the works.
- Foot traffic will be managed by our construction contractor DM Civil and their traffic management subcontractor.

Water supply interruptions: There may be a temporary water supply interruption to your property during the work. We will contact you directly if your property is affected.

Impacts to businesses: Water Corporation are working with the City of Melville, Bicton Central shopping centre and Stammers Marketplace to support property owners and businesses through the works as they will be directly impacted. Please continue to support local businesses during construction as they will be remaining open and trading as usual during construction.

We appreciate this work may cause temporary disruptions and thank you for your understanding.

Help us go paperless

We're keen to keep you updated on this work while reducing our paper mailouts.
