Dear Sir/Madam,

**SUBJECT: WATER CORPORATION PROPOSED WATER SUPPLY IMPROVEMENT
WORK IN THE TOWN OF EAST FREMANTLE AND THE CITY OF MELVILLE**

Water Corporation proposes to install a approximately 3 kilometre water pipeline to improve the security and reliability of the water supply in East Fremantle, Palmyra and Bicton for decades to come.

This proposed construction work will involve open trench excavation down the centre of one lane of the road along Fraser Street, Petra Street, Fletcher Street, Moss Street, George Street, Silas Street, St Peter Road and Sewell Street.

To minimise disruption to Canning Highway, the new pipeline will be installed via micro-tunnelling under the highway at Petra Street and Sewell Street. This methodology has been selected to help reduce construction timeframes and to minimise disruption to residents, businesses and commuters.

Additional local reticulation upgrades will also be occurring as a part of this work.

The attached Notice of Proposal plan provides further details on this work. This plan can also be viewed on the project website at watercorporation.com.au/eastfremantle.

We are notifying you as this proposal includes construction work in the vicinity of a property that you own and/or occupy.

Any objections or comments can be made in writing to the Project Manager, Shelly Trew, by email Shelly.Trew@watercorporation.com.au or mail PO Box 100 Leederville WA 6902 by Monday 1 February 2021, fully stating your reasons for the objections.

Subject to receipt of all required approvals, the proposed work is scheduled to commence in mid-2021 and is expected to take approximately 10 months to complete.

We will keep you informed of specific project construction details, including any potential traffic disruptions, closer to the time of the work starting.

We are committed to working with you to minimise the impacts of this essential work.

629 Newcastle Street
Leederville WA 6007

PO Box 100
