

Ashfield water pipeline upgrades

Project update – upcoming night work

What is happening?

We'd like to update you on the Ashfield Water Pipeline Upgrade project.

Our authorised contractor, DMC has recently commenced construction to install a new water pipeline near the Ashfield Train Station, which will replace the existing pipeline. This project will help to shape WA's water future by securing the supply of water to Ashfield and Bassendean.

Part of the work requires microtunnelling under the Ashfield Train Station. To safely drill and microtunnel near the train station, we are required to work within the Public Transport Authority's (PTA) rail shutdown and maintenance period.

When is this happening?

This work is scheduled between **4:00am Sunday 9 March** until **7:00am Monday 10 March 2025**. These times have been elected and restricted by the PTA.

After this period, work will continue taking place on **Monday to Saturday between 7am and 5pm**.

What should I expect?

As with any construction activities, there will be an increase in vehicle movement, noise and dust in the area.

Traffic management signage and personnel will be on-site to direct vehicles and pedestrians safely around the work area.

To safely complete this essential work, we will **temporarily close one lane on Railway Parade and Guildford Road until early May 2025**. Some footpaths around the area will have partial intermittent closures and detours.

We will aim to keep impacts to the community to a minimum wherever possible and keep the area tidy.

We thank you for your understanding and cooperation whilst this essential work takes place.
